Feel Confident Choosing a Legal Financial Services Provider

The Luxorium team is focused on global development, so we aim to open new representative offices in other countries in the near future!

04

Company formation history

2025 marked the launch point for Luxorium under the leadership of Liam Cooper. Our experience, knowledge, and technology enabled us to create a global business model that unites all the advantages of the crypto space in one place. We are proud to make cryptocurrency tools accessible to everyone.

2020

Early Stages

The initial stages of becoming a global company began in 2020 when the opportunities in the crypto market started to increase rapidly. It was during this period that Liam Cooper conceived the idea of creating a company—a leader in the crypto market for investing and providing financial services.

2021

Foundation

The foundation of Luxorium is built on the principles of scientific-strategic analysis, economic stability, financial efficiency, and most importantly, respect for the client.

2022

Realizing the Vision

Bringing the idea to reality took a considerable amount of time, as the following years were not the most favorable for starting a business, considering the economic stability in the market. From 2020–2021, Liam Cooper meticulously analyzed the market to identify the most stable sources of returns and combinations that allow generating stable profitability even under the most challenging market conditions.

2023

Main Model

In 2023, when the main business model of Luxorium was created, the process of forming the company's core began, consisting of international specialists from various fields of the crypto space and the financial world. The company's ambitions, as well as the work environment and development opportunities, enabled the creation of the best team of professionals, filled with experience, high performance, and a clear vision.

2024

Testing

Nearly all of 2024 was devoted to thorough testing and practical refinements of the company's business model, leading to a powerful performance and allowing for a significant expansion of Luxorium staff. In addition, we organized a technology department and funded unique advanced developments in the fields of Robotics, AI, and Machine Learning.

2025

Final Stages

The year 2025 marked the final stage in the formation of Luxorium – a new era in the world of crypto finance and investment. The company was officially registered in Sydney, one of Australia's largest cities, located on the southeastern coast, by the bay. Its reliability is backed by authorized capital formed through extensive audits and testing.

Company

Activities at Luxorium

Luxorium has successfully assembled a team of professionals and unified everything necessary to set a new standard in the world of investments and financial services.

We offer our clients products and services backed by nine sources of income and top-tier technological developments. Achieve your goals and realize your dreams. Luxorium was made to be number one.

**Luxorium
Company**

SOURCE
01

Futures Trading:

Futures trading is a rapidly growing tool in the financial market. It allows you to profit from price fluctuations without actually owning the underlying assets. It's an effective way to diversify risk and manage investments more efficiently.

Day Trading:

Day Trading, a trading strategy that yields profitability in the short term through rapid response to changes and instant decision-making. Here, every second is key to profit.

SOURCE
02

SOURCE
03

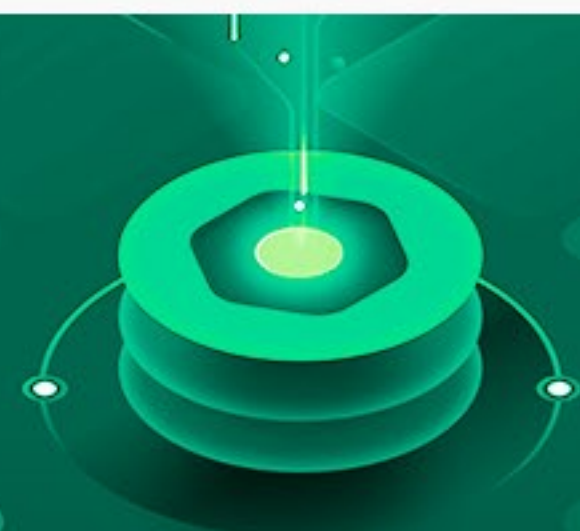

Swing Trading:

A flexible strategy that yields benefits under both short-term and medium-term conditions. A unique combination of patience and timely decisions for stable profit.

**Luxorium
Company**

SOURCE
06

DeFi Staking:

DeFi Staking offers the opportunity for higher returns in specific currencies, but entering existing DeFi projects is often associated with high barriers. Luxorium actively participates in various DeFi products on behalf of the private company, receiving and distributing the profits between the company and its clients. You do not need to manage private keys, purchase resources, conduct complex transactions, or perform other labor-intensive manipulations to successfully earn in this sector.

Medium-Term Trading:

A strategy that provides a stable income based on precise analytics. A combination of fundamental and technical analysis ensures confident steps in the crypto space. Each deal made by Luxorium is a clearly foreseen move towards stable growth.

SOURCE
04

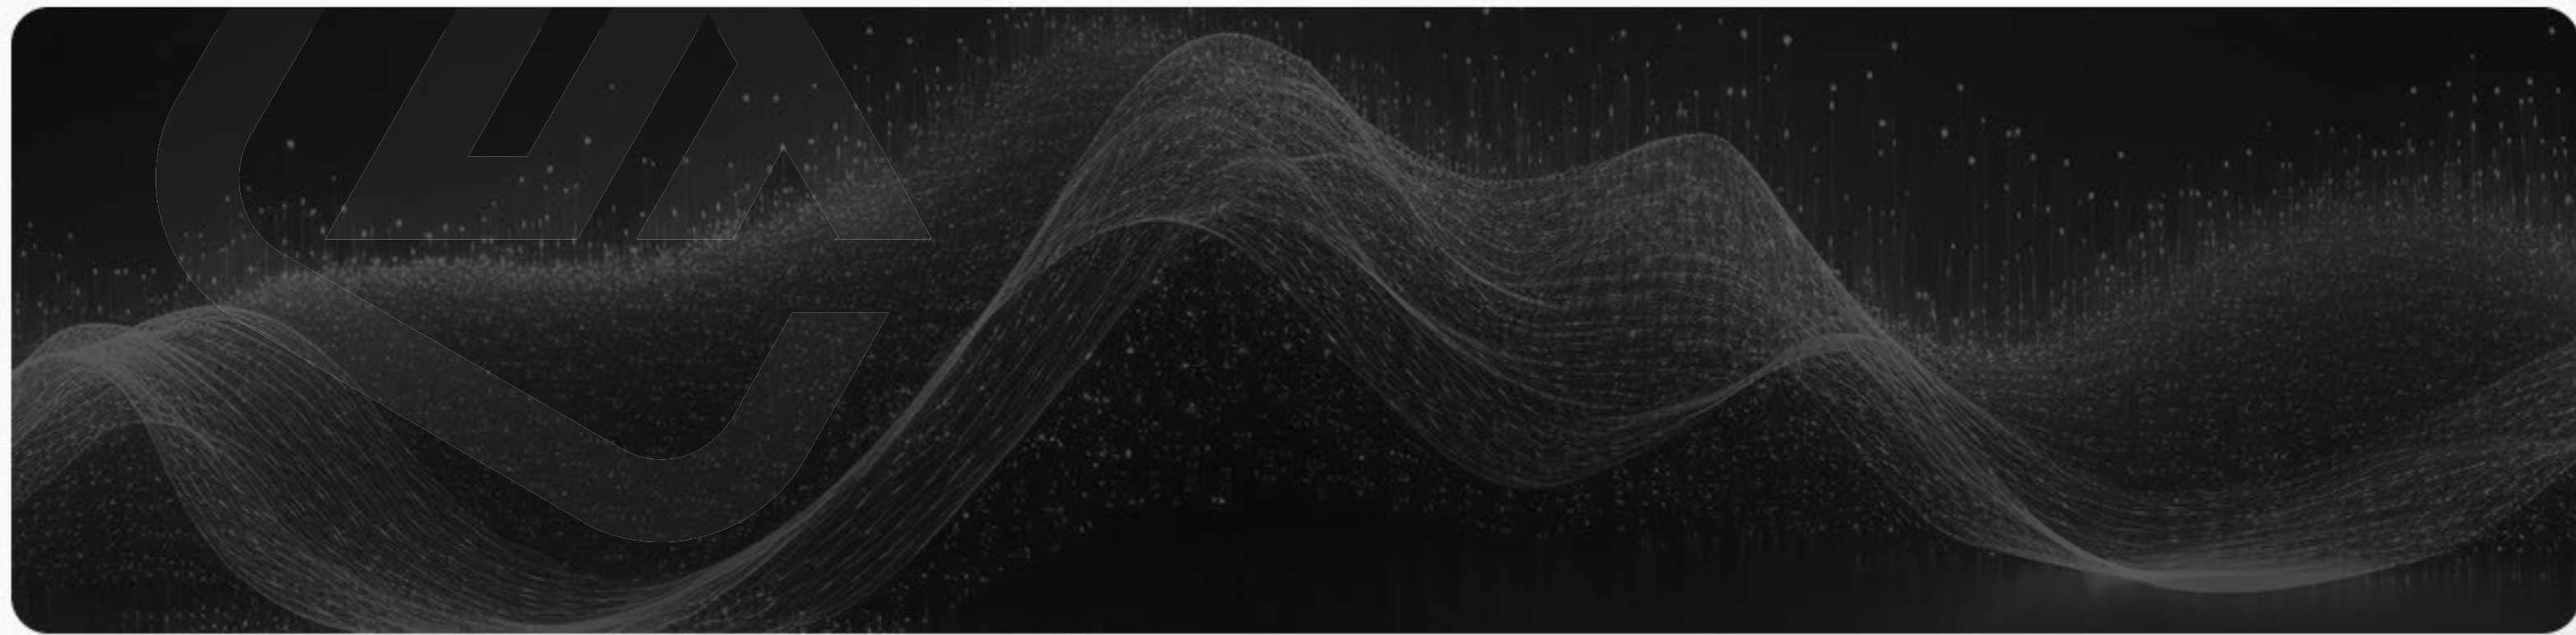

SOURCE
05

Long-Term Trading:

An investment perspective, a reliable strategy for those who value stability and understand the benefits of long-term growth perspectives. Here, every investment shapes the success of your financial future.

SOURCE
07

Crypto Arbitrage:

Arbitrage provides earnings for both ordinary traders and large market makers, and it is typical for all markets. Crypto Arbitrage at Luxorium is a unique combination of professionalism and innovative AI developments that make every price fluctuation an opportunity for profit. AI actively scans various exchange platforms, automatically identifying price differences in the same assets, enabling us to execute profitable transactions instantaneously.

SOURCE
08

Robotic Trading:

Is an innovative product that smartly and accurately calculates each action. Our trading robots, trained on advanced algorithms, ensure outstanding returns by responding instantly and efficiently to changes. The automated nature of trading eliminates emotional influence and creates stable strategies for earning on short-term and medium-term trading deals.

Currency Exchange:

We provide instant currency exchange services worldwide, thereby facilitating interaction with the crypto space and enabling clients to access as many useful features as possible in one place. Luxorium conducts thousands of exchange operations daily, charging a 3% commission on each transaction and evenly distributing profits to ensure all income directions, both short-term and long-term.

Status	Lvl 1	Lvl 2	Lvl 3	Lvl 4	Lvl 5	Lvl 6	Lvl 7

How it Works?

To advance through the leadership status system, you need to monitor the completion of 2 goals:

1. The sum of your personal investments. (Business Volume)
2. The sum of investments made by your structure. (Career Volume)

A new status will be assigned automatically upon reaching the necessary metrics.
